CERTIFIED MAIL #7003 0390 0004 6557 8902
RETURN RECIEPT REQUESTED

LOY CRAPO
350 E 300 S
DELTA UT 84624

Dear Mr. Crapo,

On January 10, 2006 you were sent a letter informing you that your "Notice" UTU 78296 and the sale of comon variety material UTU 79839 have been cancelled. The letter offered you an option of reclaiming the site or getting a waiver from the mining claim claimant to begin the sales process anew. The letter required you to contact me within thirty (30) days to inform me how you wished to proceed. To date I have not heard from you concerning this matter.

Since the letter of January 10, 2006, I have received a request to purchase mineral materials from one of the claimants, Mr. Dale Rogers. This opens another option for you being relieved of reclamation responsibility. Mr. Rogers is willing to accept reclamation responsibilty for the surface disturbance created under your notice as part of his proposed sale contract. However, in order to process his sale request I am required to receive a waiver from the claimants for whom you were acting as operator. Their claim has been amended to include the area where Mr. Roger wishes to operate.

The process for entering into a mineral material sale where unpatented mining claims are present requires that BLM receive a waiver from the claimants verifying that the sale on all or defined parts of the mining claims will not materially interfere with prospecting, mining, or processing operations, or uses resonably incident therto. Alternatively, a sale can proceed with a report from a BLM geologist or mining engineer that determines that the sale on all or defined parts of the mining claims will not materially interfere with prospecting, mining, or processing operations, or uses resonably incident therto. Since

DIV. OF OIL, GAS & MINING

the claims located by all parties in this case appear to be for the same mineral material, such a determination would probably not be possible.

Included with this letter I have included a copy of the waiver form. Since you were acting as operator for these claimants and are responsible for reclamation of the surface disturbance, I hope you might expedite the submission of the waivers. I require waivers for Utah Mining Claim UMC367306 from Althea Crapo, Carrie Crapo, Donna Crapo, Kent Crapo, Rhett Crapo, Wade Crapo, Bill Owens, and Kristi Owens. If I receive the waivers within thirty (30) days of your receipt of this letter I will consider your reclamation responsibility for UTU 78296 fulfilled and release the \$1,000.00 bond BLM currently holds. If you are unable to acquire the waivers you must begin reclamation immediately and post an additional \$5,000.00 bond to be held until reclamation is deemed satisfactorily completed.

Should you have any questions concerning this matter please contact me at (435) 743-3125.

Sincerely,

A handwritten signature in black ink, appearing to read "Jerry W. Mansfield".

Jerry W. Mansfield
Geologist
